PROFILE

I'm a software developer with a Bachelor's degree in Computer Science from the Faculty of Engineering at the University of Rijeka. I'm currently continuing my studies at the Faculty of Electrical Engineering and Computing (FER) in Zagreb.

Most of my experience is with .NET, and I enjoy building applications with clean, well-structured, layered architectures. I like keeping code organized, separating responsibilities, and thinking about how a project will grow over time.

I also enjoy working with React and modern web technologies, especially when I get to build something from the backend all the way to the user interface.

EXPERIENCE

Software Engineer

IN2 Group • Nov 2024 - Jul 2025 · Rijeka

Worked with C# and ASP.NET Core as part of a full-time software engineering role.

Diploma Thesis Project

InCubis • Oct 2023 - Aug 2024 · Remote

Built a web application for task and project management, with authentication, workspaces, task tracking and profile management.

C# · ASP.NET Core · Entity Framework · React · TypeScript

Student Internship

ASEE • Mar 2023 - Aug 2023 · Rijeka

Co-developed an iOS parking reservation app in a two-person team, using Swift, RxSwift and Xcode. Adapted the UI to different iOS screen sizes.
